## ALPHA Reflector

1,000 Watt  
Efficiency 91.7%

### KEY FEATURES & BENEFITS:

- Designed for optimum performance across multiple applications.
- More rectangular illumination field produces exceptional uniformity and ideal light distribution over the crop.
- Highly polished, miro surface material helps to provide a diffused light pattern.
- Surface of the reflector is corrosion resistant and guarantees a low sensitivity to pollution.
- Specially designed mounting collar provides enhanced durability and ease of maintenance.
