DELTA Reflector

315 Watt
Efficiency 87.8%

KEY FEATURES & BENEFITS:

- Designed for optimum performance across multiple applications.
- More rectangular illumination field produces exceptional uniformity and ideal light distribution over the crop.
- Highly polished, miro surface material helps to provide a diffused light pattern.
- Surface of the reflector is corrosion resistant and guarantees a low sensitivity to pollution.
- Specially designed mounting collar provides enhanced durability and ease of maintenance.

Delta Reflector: Ideal performance at an 8ft. mounting height or higher (depending of light level required)

1 lux = **0.0929 fc**

1 fc = 10,76391 lux

1,000 lux = 13.0 $\mu\text{mol}/\text{mol}^{2\cdot\text{s}}$ (only for HPS Lighting)

	lux min	lux max	fc min	fc max	$\mu\text{mol}/\text{mol}^{2\cdot\text{s}}$ min	$\mu\text{mol}/\text{mol}^{2\cdot\text{s}}$ max
